## Consistent Dedication & Quality

**Benetech's commitment to the client's resources results in closed cases and savings.**

**Client:** Municipality (County)

**Number of Employees:** Approximately 1,440

Benetech began administering this municipality in 2007. The successes here are the subtle successes of conscientious administration. Benetech applies an aggressive claims handling approach, thorough claim investigation and management, strong negotiations, and operational efficiencies to each client. Every claim is reviewed for potential savings.

Within the first year of administering this municipality, Benetech closed 532 claims. Medical cost savings achieved over three years totaled \$449,565. This scenario is typical of Benetech's administration. Through experience and diligence Benetech can consistently achieve savings for clients.

Benetech has developed a direct arrangement with a Pharmacy Benefits Manager (PBM) that is utilized for all Benetech clients. This program is running 5% to 8% below the workers' compensation fee schedule. Clients are also getting the full amount of rebates available. Benetech derives no revenue from this arrangement ***the clients receive all the savings from this program.***

### Highlights:

- **Controverted claim resulting in savings of approximately \$50,000.** Claim disallowment avoided all costs of surgery, treatment, and lost time.
- Numerous voluntary withdrawals from labor market decisions. Benetech consistently identifies claimants that do not look for work with his/her restrictions.
- Controverted claims resulting in claim disallowment.
- Numerous Section 32 settlements strongly negotiated to the minimum 5 – 6 year payment threshold, thus working within the client budget restrictions.
